

Figure 1 is a line plot showing the performance of various methods (JI, log JI, BPLN, log BPLN, Xtalk, log Xtalk, Xtalk.Unique, Xtalk.Unique.log) across different citation cutoffs (0.4 to 1.0). The plot shows that Xtalk.Unique and Xtalk.Unique.log generally perform best, especially at higher citation cutoffs, while JI and log JI perform worst. The plot also includes a legend for the methods and a dotted line indicating a baseline performance level.
