

A diagram illustrating a molecular interaction. On the left, a black rectangular box contains three light blue ovals stacked vertically, labeled DLL1, DLL4, and DLL3 from top to bottom. On the right, another black rectangular box contains four light green ovals stacked vertically, labeled NOTCH1, NOTCH2, NOTCH3, and NOTCH4 from top to bottom. A thick red horizontal line connects the right side of the DLL4 oval to the left side of the NOTCH2 oval, indicating a specific interaction between these two proteins.

DLL1

DLL4

DLL3

NOTCH1

NOTCH2

NOTCH3

NOTCH4
