

Computational and Experimental Models of Engineered Tissues

```
graph TD; A[Computational and Experimental Models of Engineered Tissues] --> B[Hepatic tissue engineering]; A --> C[Interfacial tissue engineering]; A --> D[Cellular response networks]; B --> E[Models of metastasis]; C --> F[High-throughput toxicity testing]; D --> G[Intercellular signaling]; B --> H(( )); C --> H; D --> H; H --> E; H --> F; H --> G;
```

Themes

Hepatic tissue engineering

Interfacial tissue engineering

Cellular response networks

Applications

Models of metastasis

High-throughput toxicity testing

Intercellular signaling
